## ➤ **AURO** Safe Deposit Locker Cabinets

The AURO Safe Deposit Locker Cabinets are designed for meeting exact security requirements, while making the most efficient use of vault space providing with lockers featuring a most attractive design. The lockers are manufactured as per IS:5244 specification with fortified frame work, as they are fabricated from the best quality tested steel plates. Joints are welded by skilled and qualified welders by using approved quality welding consumables as per AWS standards which ensures equal rigidity, strength and greater accuracy to AURO products.

All steel parts of AURO products are subject to anti-rust and anti-corrosion treatment in latest 8 tanks anti rust treatment plant as per IS 6005 and IS 3618. The process involves degreasing, pickling, phosphating, passivation before giving final finishing in high quality paint and oven baked for scratch proof and ever lasting finish. Doors and hinges are decorated by anodized Aluminum covers.

The AURO safe deposit locker is fitted with special dual control 7 lever **Safe deposit lock** in each individual locker. These locks are unpickable which ensures absolute security.

AURO can also provide personal lock known as 'renters own lock' from inside for total protection and customer retains the key. Over all pad locking systems can also be provided so that customer can use their own padlocks for more confidence.

AURO offers a wide range of safe deposit lockers as per the configuration mentioned in the Table-A. In addition to, AURO also manufactures safe deposit lockers as per customers choice and specification for the best and economical use of available space. AURO has got country wide dealers network. Dealers and marketing team will be too glad to meet and offer pre and after sales service within short notice.

AURO products are warranted for 12 Months against manufacturing defect after that Company/local dealer will provide necessary service at a very reasonable terms.

AURO can provide consultancy service on techno-commercial aspects to you from concept stage to commissioning stage with out incurring any extra cost.
